**BELTON-ORIENTAL
HEAT TREATMENT SDN. BHD.**

THE COMPANY

In line with the Government's call to venture into Hi-Tech industries, Belton-Oriental Heat Treatment Sdn. Bhd. is established to provide High Quality Heat Treatment Services for the fast expanding automotive components and precision engineering manufacturing sectors.

This Joint-Venture company is a strategic alliance between **Kumpulan Belton Berhad** and **Oriental Engineering Co. Ltd** of Japan.

Kumpulan Belton Berhad is a leading Automotive Components and Fasteners manufacturing group listed on the Kuala Lumpur Stock Exchange (KLSE). Six of Belton's major manufacturing subsidiaries are accredited with ISO 9001 : 2000 Quality Management System. **Oriental Engineering Co. Ltd.** is a well-established and reputable heat treatment equipment manufacturer and commercial heat treatment service provider in the region.

With these ultra modern, state-of-the-art equipment, Belton-Oriental is committed to provide the highest quality heat treatment services at competitive prices. Local manufactures can tap our expertise to get access to the international markets. Likewise, Multinational companies can take advantage to localize more components to gain competitive edge.

Belton-Oriental has the expertise and resources to be your partner towards manufacturing excellence and to meet the challenges ahead.

Quality Assurance

A fully equipped laboratory with **Microgrinder, Micropress, Microcutter, Micro-Vicker Hardness Tester, Rockwell Hardness Tester and Microscope** that can guarantee your quality needs.

Quality Policy Statement

To be a leader in our field, Promptly offering highest quality services at competitive prices thereby ensuring total customers satisfaction.

Our Commitments

- Prompt services
- Quality assurance to meet the highest standard
- Be your partner in research and development
- Metallurgical and process consultations
