

## OUR MARKET

We are the largest supplier of U-Bolts and Shackle and Pin Assemblies to the local Original Equipment Market (OEM) for more than 20 years. Our reliable and durable quality products have gained worldwide recognition and currently more than 50% of our total production is being exported to both the Overseas OE and Replacement Markets.

QUALITY AND SAFETY IN TRANSPORTATION

## OVERVIEW OF THE PLANT

Our manufacturing plant is specialized in the manufacture of a wide range of automotive undercarriage components, which include U-Bolts, Shackle & Pin Assemblies as well as Tool Kits. Our products are manufactured to conform to the exacting standards and specifications of our customers and the plant is designed to be versatile, catering for both low and high volume production while maintaining superior quality levels at all times.

Our plant is equipped with advanced facilities, which include:-

- Computer Numeric Controlled (CNC) lathes,
- Electrical Upsetting Machine,
- Hydraulic Forging machine,
- Drip-Free Type Atmospheric Control Heat-Treatment facilities,
- High Frequency Induction Surface Hardening Machine,
- Automated Electroplating facilities,
- Robotic Welding machine,

A team of experienced and technically sound personnel led our in-house Research & Development and Tooling department. This results in reduced lead-time in the development of new products.

## QUALITY ASSURANCE

Our modern Quality Control laboratory is equipped with advanced facilities such as Digital Micro-Vickers and Rockwell Hardness Testers, Tensile Load Tester, Profile Projector and Metallurgical Microscope in ensuring that only products, which meet the specified requirements, are produced and delivered to all our customers. Our commitment towards the manufacture of premium quality products and the provision of excellent services has led to the Quality Certification ISO 9001:2000 by the Standards and Industrial Research Institute of Malaysia (SIRIM) since year 2001.

## PRODUCT RANGE

Most Japanese and Continental makes of light and heavy commercial vehicles and 4WD's.
